

PATENTED 1892
MADE FOR THE
STANDARD CABINET
CO.
KANSAS CITY, MO.
KANSAS CITY, MO.

T. S. L. & CO. K. C. MO.

DESCRIPTION.)

The Cabinet is 35 inches high, 27 inches wide, made of sheet metal, beautifully decorated, practically air-tight, dust, moisture and insect proof, and hangs on the wall in a handy position above and a little to the right of the cook table, as seen in cut. It contains a 50-pound flour bin, a 30-pound meal bin, a 30-pound sugar bin, and three other bins which hold one gallon each that are used for rice, oatmeal, coffee or anything bought in small quantities; besides a bread or cake box, an extract or tool box, five air-tight tea and spice drawers, coffee mill, spring scales, cake cutter, scoop and scoop sifter.

TO FILL THE CABINET.

The bins are filled through the top and closed air-tight by pressed covers and screw caps.

TO REMOVE THE CONTENTS.

Each bin has a false bottom which prevents only such a quantity of the contents to rest upon the main bottom as may be dipped out with the scoop sifter, as seen in the cut.

BREAD BOX.

The bread box is warranted to keep the contents free from either evaporation or mildew.

SPICE DRAWERS.

The five screw cap drawers are air-tight, preventing loss of strength by evaporation of the tea and spices.

COFFEE MILL.

The coffee mill is attached to the bottom of the coffee bin, which is always automatically charged, and when the coffee is ground it falls into the drawer below.

SCALES.

The scales are convenient for weighing everything bought and sold.

SCOOP SIFTER.

The Standard Scoop Sifter, the best scoop and sifter on the market, is furnished with each Cabinet, for removing and sifting the flour and meal.

THE CABINET hanging on the wall in proper position over the cook table, with doors open showing flour, meal, sugar, bread, etc., in their proper bins and boxes, with scoop sifter in one bin and another on the table, with one of the air-tight spice drawers.

On the outside page is the Cabinet Closed.

....The **Standard Cabinet.**

It is composed of eighteen different kitchen tools, boxes, bins and receptacles which, if bought separately, would cost much more, fill the kitchen and be unhandy and in the way.

The following are remarks from different ladies who are using the Standard Cabinet:

"With it I am able to do my own cooking and save its cost every three weeks in the cook's wages."

"No more running to the flour bins and barrels for every spoonful of flour, meal or sugar I need so often each meal."

"I set aside a wooden cabinet for the Standard, and would not be without it for many times its cost."

"It gives me better relish for my meals to see how clean all in the Cabinet is kept."

"It saves me thousands of steps, much sweeping and a daily waste."

"I can conceive of nothing so much out of the way and still so immediately at hand with everything needed."

"It saves me all stooping and reaching, which the doctor forbids me doing."

"The longer it is used the more it is appreciated."

"It is more help in the kitchen than many servants."

"No more trouble with ants, roaches, mice and mildew."

"No kitchen is complete without one."

"It is not economy to be without it."

No Kitchen Should be Without it

— IT COMBINES —

CLEANLINESS,

ECONOMY

AND BEAUTY.
